EXPERIENCE

Knobull — *Developer Intern*

January 2018 - May 2018   North Kingstown, RI

• Designated and organized tasks between team members as project coordinator.

• Updated the appearance of the homepage and style of the website using HTML and CSS.

Open Learning Exchange — *Software Engineering Intern*

July 2017 - October 2017   Cambridge, MA

• Successfully implemented Travis CI testing for application reboot in Angular and CouchDB.

• Added interactive games to the HTML resources in the application library.

PROJECTS

Trip Planner

Created a CRUD app for planning trips with custom push pins using Bing Maps. Created using React, Flask and PostgreSQL.

Myflix List

Web-based CRUD app for keeping track of watched TV shows and movies with user-created list. Created using Express and MongoDB.

Algo Sort Game

An educational sorting card game for learning how sorting algorithms work. Created with jQuery and jQuery UI.
